Class II Permissive Change Cover Letter

RE: FCC ID: VQSAMN12310

We are submitting an application for a Class II permissive change to the modular approval of the WHDI Wireless radio module (FCC ID: VQSAMN12310), the original grant date is Sep 08, 2008.

Here are the changes:

1. Improve U9 output power flatness over frequency: This change affects only U9 internal performance, and not affect the output power outside antennas due to SW control.
2. Improve Antenna matching for better VSWR. This change decreases the return power to back components from the antennas and not affect the output power outside the antennas due to SW control.

Sincerely,

A handwritten signature in black ink, appearing to read "Aviram Matosevich".
